

To All Our Valued Customers,

It's that time of the month again when I need to write my letter, and admittedly, there are times when my mind is blank, and I can't think of anything new or interesting to write about. So I went through some old newsletters to see what was happening at this time in previous years. Last year, we were suffering a terrible winter with tons of snow. Luckily, we have had a pretty mild winter so far. Let's keep our fingers crossed that it will hold through the end of the season. But just in case, please check our website at www.ccls.org/ccl, our Facebook page at www.Facebook.com/ChesterCountyLibrary, or call us at 610-280-2600 for any cancellations or postponements.

In February 2010, I announced that we were just starting our eBook collection with 300 titles purchased by our Friends of the Chester County Library. I am proud to say that just two years later we have built an extensive collection of over 4,500 titles. Having trouble downloading? We now have one-on-one tutoring available to help walk you through it. Just visit our Multimedia Desk, or call us at 610-280-2640 to set up an appointment.

However, some things never change, and once again it is tax season. And, just like years past, we are still providing federal and state tax forms and instructions to help make tax filing easier for you. Something new, though, is that we will be offering **free** tax preparation for low to moderate income households sponsored by VITA (Volunteer Income Tax Assistance) two evenings this month. See page 2 for more details.

As always, this month we are offering some very exciting and interesting programs. Even though our programming is focused on *Healthy Minds, Healthy Bodies*, splurge a little and celebrate Valentine's Day with some chocolate.

Happy Valentine's Day.

CONSERVATION Book Club

Please Join Us

Wednesday, February 8, at 7
pm in the Board Room
as we discuss

Silent Spring by Rachel Carson

The outcry that followed the publication of this book forced the banning of DDT and spurred revolutionary changes in the laws affecting our air, land, and water. Carson's eloquent book was instrumental in launching the environmental movement.

This discussion will be moderated by Bruce Simons, volunteer at Jenkins Arboretum and avid environmentalist.
