BCRC contains investment reports from a variety of analysts. There are two methods of searching for the reports: by company or by contributor.

To search by company: Enter the company name in the **Search Term** box. In the next box, choose **Company Search**. **Click Search**. A search results page will be displayed. Click on the name of the appropriate company. Look at the tabs near the top of the page. If the **Investment Reports** tab is active (tabs that are active will turn yellow when the mouse is moved over them), there is an investment report for that company.

To search by contributor (investment analyst): **Click** on the **Advanced Search** button. In the **Content Area** box, choose **Investment Reports**. Enter the name of a contributor in the search box and choose **Contributor** from the list displayed in the second box. **Click Search**. All the reports by that contributor will be displayed. For example: search for Merrill Lynch.
